SDS North American Registry Update

The revised SDS Registry web site is now live. We incorporated many suggestions for improvement. www.sdsregistry.org

We are focusing our efforts on obtaining medical charts and extracting data into the database. It has been challenging to obtain all the important pieces of medical data from all the participants. To this end, we have streamlined the initial document request. We are also preparing an abstract for the upcoming SDS Congress. Thanks for all the support from SDS America.

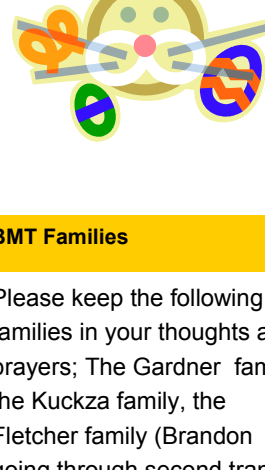

Best Regards,

Akiko Shimamura, MD PhD

Updated Hematology Booklets Available

Dr. Richard Harris recently updated the [Management of the Hematologic Abnormalities of Shwachman-Diamond Syndrome](#) booklets. To order your free copy, please email [Shwachman-Diamond America](#).

Spring 2011

BMT Families

Please keep the following families in your thoughts and prayers; The Gardner family, the Kuckza family, the Fletcher family (Brandon going through second transplant) and the James family.

6th International Congress on Shwachman-Diamond Syndrome

Shwachman-Diamond America is a proud sponsor of the 6th International Congress on Shwachman-Diamond Syndrome. The Congress will be held at the New York Academy of Sciences June 28-30, 2011. For more information or to register, visit the [SDS International Congress website](#)

Newsletter Format Changing

Our newsletter will no longer be published 6 times a year, we will be publishing quarterly. As always, article submissions are always accepted. To submit an article, please email [SDA](#)
